

# Optimize Study Operations & Outcomes with Reliable, High-Quality Endpoint Data

Electronic clinical outcome assessments (eCOA) simplify and accelerate the data collection process while ensuring the best quality and integrity.

## Solve common COA data challenges

### Eliminate errors

Unlike pen and paper, our eCOA features built-in branching logic and error checks to eliminate ambiguous, conflicting, or missing data.

### Ensure timely completion

Visit windows and reminders ensure timely entries, while time/date stamps satisfy regulatory data requirements.

### Limit missing data

Drive remote completion adherence through helpful reminders and non-compliance alerts.

### Reduce site burden

Electronic collection with automatic data validation eliminates manual transcription and prevents common data entry errors.

## Why choose Signant SmartSignals eCOA?

With Signant SmartSignals eCOA, you get more than advanced technology. With our clinical, technical, and global operational expertise, you'll be prepared to capture inspection-ready endpoint data from anyone, anywhere.

- ① Take advantage of integrated eCOA and patient engagement functionality within a single app to enhance adherence and patient convenience.
- ② Signant offers the **industry's best global logistics**, giving you the flexibility to run your study the way you want: ship provisioned devices anywhere in the world or opt for BYOD.
- ③ In-house **scientific and clinical experts** implement and develop instruments according to best practices.
- ④ Our proprietary design tool incorporates a **single build feature** for all data collection modalities and **consumer grade graphics** that improve the patient user experience.
- ⑤ Signant's **extensive eCOA library** of pre-validated scales ensures quality, validity, and speed of implementation for any indication, while our scale management team helps you navigate instrument versions and licensing.
- ⑥ Our eCOA is designed with **20 years of proven best practices** and offers unsurpassed experience getting new medications approved across various therapeutic areas, study designs, patient populations, and countries.

## Delivering successful eCOA

eCOA is far more than just technology. Signant SmartSignals eCOA perfectly addresses the Four S's needed for successful eCOA implementation: Solution, Science, Scale, and Service.

### SOLUTION

Full-featured eCOA with no capability gaps

### SCIENCE

Scientific credibility and expertise to generate high quality, reliable evidence

### SCALE

Architectural and operational capacity and global reach

### SERVICE

High quality project management, support, logistics and scale management

## Unrivaled eCOA Experience

## Supporting 25% of novel drug approvals\* across FDA and EMA

Signant Health's technology and services have supported a quarter of all regulatory authorizations for new active substances in their first indications across major global markets.

\*2021-2024. Regulatory authorization for new drug for first indication, defined as Novel Drug Approval by FDA, and Marketing Authorization for New Active Substance by EMA.

## WHO IS SIGNANT HEALTH?

Signant Health is the evidence generation company. We are focused on leveraging software, deep therapeutic and scientific knowledge, and operational expertise to consistently capture, aggregate, and reveal quality evidence for clinical studies across traditional, virtual, and hybrid trial models. For more than 25 years, over 600 sponsors and CROs of all sizes – including all Top 20 pharma – have trusted Signant solutions for remote and site-based eCOA, EDC, eConsent, RTSM, supply chain management, and data quality analytics.
